David Lockard - BFU PM

PROJECT MANAGER: and Lenny Landis - RPSU PMSignature 

AVERAGE FIELD FORCE

MAJOR EQUIPMENT

DESCRIPTION OF WORK PERFORMED:

LCMF traveled to Kipnuk with AEA on Thursday February 8th, 2007. We arrived at 10:30 a.m. in Kipnuk. David Lockard with AEA and Glen Oen with LCMF went to inspect the condition of existing Tank Farms. Lenny Landis with AEA and with Egor Esipov with LCMF went to examine the existing Kipnuk Light Plant.

At 1:00 p.m. we attended a meeting at the Kipnuk Traditional Council office building. Representatives from the Kipnuk Traditional Council, Kugkaktlik Limited, and the School District were present. Site selection for the new Bulk Tank Farm and Power Plant were discussed. David and Glen presented the proposed bulk tank farm project. Lenny Landis presented the proposed power plant project. Site selection for both projects was discussed in details. The community leaders expressed their concerns with the site selection and provided us with their views and ideas. The majority of Kipnuk Traditional Council and Kugkaktlik Limited were present at the meeting and both parties gave a verbal agreement on the site proposed as shown on the LCMF drawing dated 02/06/07.

The following items were also discussions:

- Flood of Record
- Current Population
- Equipment available for moving drill for Geotechnical Investigation.
- Proposed 4,000 gallon school intermediate tank is too small and should be 6,000 to 8,000 gallon.

SPECIAL COMMENTS:

The following Board Members were present with and Kugkaktlik Limited:

- Carl Dock
- Paul Dock
- David Amik
- Adam Kashatok
- Jim Paul

Nelson Anaver, the Kugkaktlik Limited General Manager, was also present.
